KPM Named one of Greater Boston's Best Places to Work

BRAINTREE, MA—KPM, a leading CPA and business consulting firm, is pleased to announce that it has been recognized as one of Greater Boston's "best places to work" according to a survey conducted by Quantum Market Research on behalf of the Boston Business Journal ("BBJ").

"We are pleased to be considered one of the best places to work," comments Kevin P. Martin, Sr., KPM's Founding Director. "Our people are our greatest asset, the foundation of our company," Martin adds. "Beyond unique benefits, the 'best places to work' companies invest in their teams, take a personal interest in staff and provide a positive and challenging work environment."

The honor recognizes companies' achievements in creating a positive work environment that attracts and retains employees through a combination of employee satisfaction, working conditions and company culture. Rating factors included such areas as pride in the company, company encouragement, support and recognition of achievement and relationships with co-workers and supervisors.

"We have an open door policy and a strong internal communications program," says Karen Kent, KPM Principal and Chair of KPM's HR Committee. "Communication is the key to every relationship," she adds. "And the overall experience that our staff have translates into outstanding client service."

"KPM prides itself on promoting a work environment that rewards innovation and creativity," Martin continues. "That concept is the core of our 'Business Ideas at Work' philosophy. It isn't a gimmick - it's the edge that differentiates us from our competition, both internally with our employees and externally with our clients."

KPM is a member of BKR International, a leading global association of independent accounting firms with over 300 offices in over 70 countries.

KPM will be honored at a recognition event at the Westin Waterfront Hotel on June 11, 2009. Honorees include, among others, Accenture, Children's Hospital, Google, Microsoft and Ritz-Carlton.
